General Meeting by Zoom

6pm

October's General Meeting had 14 Hams and spouses enjoying dinner and exchanging ideas.

Juan, AJ6PH, talked about the encouraging response he has been having with his radio project for his students. His school has allowed his students to raise an antenna to actually make radio contacts. He will be helping the club as our on-site Webmaster, linking with Alan, KM6KPW, our AZ member.

## SHAKEOUT

Did you try the ShakeOut on Oct. 20? Ron, KE6RYX, came on the Repeater frequency 146.880/146.280 a brief moment after 10:20am to pretend that an earthquake had occurred and called for response from Hams in alphabetic groups by suffix (A,B,C)(D,E,F) etc. Then Ron switched to Simplex 146.880 and made the same call. It was very easy to do! Just respond by name and call sign!

## 2023 RCARA OFFICERS

Three Hams volunteered to repeat their positions:

Ron, KE6RYX, has volunteered to continue as Director of Communications. He knows the ins and outs of our equipment as well as legal rules we need to follow.

Jim, AG6EA has volunteered to continue as Treasurer. He knows the financial regulations we have to abide by.

Bruce, W6SOW, has volunteered to continue as Membership. He's learned the ropes.

We would like to encourage you to participate in our other open positions. John, W7RSO, has been great this year to take over as President but, because he has finally earned retirement, he and his wife want to intensely delve into retirement by perhaps taking several months to travel. He may be available as Vice President.

So we need you to help the club as perhaps President or Secretary. If you have ideas about what you want the club to do this coming year, you can bring these ideas forward and make them happen with the help of the Board and the Membership.

This Zoom meeting is important so please watch for the email with the zoom address. Join in!
