

MINI **MONITOR** *FLASH*

Hi RCARA Hams

#6 July, 2021

FIELD DAY 2021 SUCCESS!

THANKS to all of you who made our Field Day 2021 succeed! We had a great “get-there-early” team who made sure we got our Pavilion, that our permit was posted, that the bathrooms were unlocked: Alan, John S, Juan, and City Park persons. We had 3 stations active at the park doing **Voice** and **Digital** with battery and solar and 2 home stations doing **CW**: John S on 40M SSB, Alan on 20M Digital, John C and Madeleine on 20M SSB, Clair at home doing CW on as many Bands as he has antennas for and Liz using her rejuvenated CW skills to get back in the game. We had a table next to a “commercial” AC circuit keeping John’s homemade chili hot. We had members and visitors coming down to cheer us on which was really fun since we had not seen each other as warm, 3D bodies in a year. An ARRL District representative stopped by to credit us as working Field Day Hams as posted on the ARRL website. Have you seen Carrie’s pictures on our W6TJ website?

So many thanks to all of you who stopped over on that beautiful day: Jim and Liz, Phil, the Lewallens, Chris and ‘Mom”, Bruce, Art and whoever else arrived that I haven’t mentioned.

We had a lean group this year, just to get back in the feel of it all, but next year maybe you can volunteer to set up an information table or keep a signup list of visitors or just chat with people about anything HAM radio related. BUT FOR NOW....

<<<COME TO OUR FIRST **LIVE** MONTHLY MEETING OF 2021>>>
THIS THURSDAY, **JULY 8**
7PM
