### **Treasure Report (Jim):**

- Checking account balance 7050.29, saving balance 3068.29
- 70th anniversary party Gift Certificates and some field day supplies yet to be purchased

### **Membership Report (Adrian):**

- Member count at 60+ members active for 2025
    - 3 more submitted applications but we are waiting on payments
    - 10 more were members last year that have not renewed yet for this year and are inactive at the moment
    - Welcome our 3 new members Dan N6DPG, Lynn KI6EQP, Eric KB6VPI
    - Roughly +50% of club members are also ARRL members
- Facebook followers are currently at about 115 and growing.

### **Communications (Ron):**

- A report was made and the Communications tech from the Riverside County will follow up and do maintenance check on the 220 link

### **Webmaster/Net Control Report (Juan):**

- Website: No major issues, forced upgrades are in progress which is causing issues with some of the links Shannon and Steve have notified Juan of many of these and he is in process of trying to recover those links, if anyone sees any link issues please reach out to Juan so he can work on them.
- Echolink: No issues
- Net: April had an average of 30 check-ins. Maximum: 35, Minimum: 26
  - Anyone wanting Net Control practice please reach out to Juan so he can schedule you and give you access to needed documents or have you net shadow.
  - Reminder we also have the Tuesday night 6 meter informal chat net
  - Post earthquake or event nets (Unscheduled check in nets)
    - Use W6TJ repeater
    - Any operator can activate this type of net, announce purpose, disseminate any info regarding the event you have, ask for emergency or priority traffic, ask for check in and record/log who checked in and with what status updates. Shannon will work on some templates and submit to Juan for approval and possible posting.
    - Relay any emergency traffic as appropriate and instruct the person to try to call 911 even if no service (bars show) as 911 calls will be picked up by any and all nearby cell towers regardless of the providers so 911 calls may go through when no others will.
      - For events that trigger an Emergency Operations Center Activation here in Riverside City know that it may take an hour or two for the EOC to be fully

staffed, your typed log of what damages and who needed help where should be forwarded to any board member or ARES operator so we can relay that information to the EOC and they can provide follow up for those residents.

- Immediate threats to life or property should be immediately called into 911 by the person requesting help or relayed by our net operator if need be. DO NOT WAIT TO NOTIFY 911 IF LIFE OR PROPERTY ARE IN IMMEDIATE THREAT OR DANGER.

### **Old Business:**

- 70th anniversary cake and gift certificates are still in the works for October

### **New Business:**

- NA

### **Announcements/Other**

- Rick KK6CTT- In event of a true disaster/emergency people will use whatever communications they have and as HAM operators we will miss many distress and information updates if we are not also listening and communicating to FRS/GMRS.
  - For practice at FRS/GMRS there is a Monday Night Woods Street and Beyond net on channel 3 (462.6125) at 8pm
    - GMRS is capable of using certain repeaters and can mimic HAM 70cm bands
    - FRS is more local (block level com's)

Madeline AJ6MF- Updates and experiences at Dx Convention and Big Bear HAM event  
Great learning opportunities and lots of interesting breakout activities  
would recommend these events for anyone interested in the future  
Microphone fright tips  
[YLRL.org](http://YLRL.org) group was present and maybe of interest to some operators

### **Presentations:**

- None this evening

### **Upcoming Events**

- 70th anniversary logo T-shirts still available and on sale tonight
  - Board is considering a future order if these sell out.
- Field day 28-29 June 2025
